

Rod Latch FS PrC and Angle Pieces with Rollers

3-165

Advantages

- For cutout C (100).
- Rod latch with variable dimensions.
- For installation on the inside of the sealed area of enclosures.
- Applicable for bending (A) 20mm and 26mm.
- RH / LH application.

Material

- **Rod latch:** zinc die, untreated
- **Flat rod, angle pieces, rived:** steel, zinc plated
- **Roll:** PA, black or steel, zinc plated

Remarks

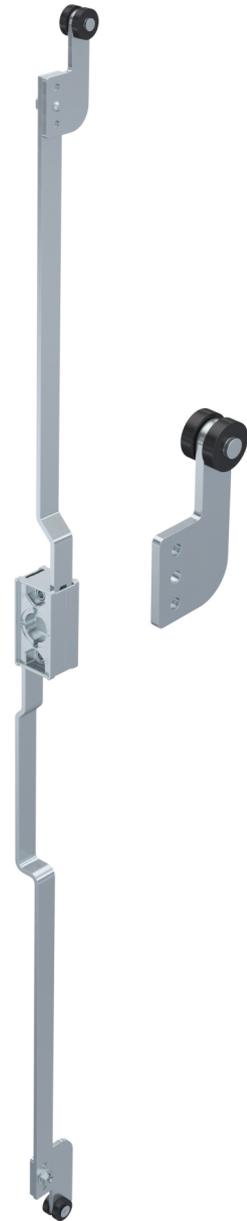

1. stroke 24mm
2. clearance

Length L (extended) for symmetrical doors is calculated from length X + 30mm and length Y + 30mm.

The rod Y is 100mm longer than the rod X.

The minimum height of the enclosure for symmetrical doors is 480mm.

Attention: drawing shows rod latch extended.
